## HISTORY OF WORKING LIFE

Chair: Docent Anu-Hanna Anttila, University of Turku, FI

The history of working life is not a unified whole, but there are many histories that are as yet unknown and unwritten, as well as new interpretations of previous, already established histories. This track will focus on the larger and smaller histories of working life, what can be learned from those and what methodologies are suitable for the analysis of the history of working life.

The stream especially welcomes papers that relate to the themes described above. If you wish to propose a session within the stream, that is, 3-4 papers tied together with specific focus or theme, the organizers will try to accommodate them in the programme.
