TRANSFORMATION OF PUBLIC SECTOR WORK

Chair: Dr. Mervi Hasu, Finnish Institute of Occupational Health, FI

Public sector work has undergone and is undergoing major upheavals and transformations in all Western countries. How and in what ways has public sector work changed, and in what ways can we think and talk about work in the public sector are among the key topics for this stream.

The stream especially welcomes papers that relate to the themes described above. If you wish to propose a session within the stream, that is, 3-4 papers tied together with specific focus or theme, the organizers will try to accommodate them in the programme.
