

# WORK2017

Work and Labour in the Digital Future

16–18 August 2017 Turku, Finland

## WORK AND FAMILY

Chairs: PhD Milla Salin, University of Turku, FI and Academy Researcher Mia Tammelin, University of Jyväskylä, FI

In comparison, linkages between work and family as well as work and life can be described as some of the most complex. Especially for Nordic countries, labour market systems as well as welfare policies are built on established connections between work and family. For many other countries, these relations are not so tight. This stream invites papers ranging from macro-level aspects to micro-level perspectives on complex relations between work and life.

This stream especially welcomes papers that relate to the themes described above. If you wish to propose one session within the stream, that is, 3-4 papers tied together with specific focus or theme, the organizers will try to accommodate them into the programme.
