

# WORK2019

Real Work in Virtual World

14-16 August 2019 Helsinki, Finland

## **GENDERING WORK**

Chairs: Professor Em. Päivi Korvajärvi & PhD Minna Nikunen, University of Jyväskylä, FI

Gender and work are entangled. Work is embodied and person-related, and its repercussions to gendering society reach beyond the work itself. It is therefore crucial to analyze how gender relates to work and how it is located in structures, meanings, interactions and subjects constituted and reconstituted in work. The questions of embodied work and ways through which the gendering of work takes place are among the topics of interest in this stream.

This stream welcomes papers that range from inequalities of various kinds to studies of gendering taking place at different levels of working life. If you wish to propose a session within the stream, that is, 3-4 papers tied together with specific focus or theme, the organizers will try to accommodate them in the programme.
