

WORK2019

Real Work in Virtual World

14-16 August 2019 Helsinki, Finland

CREATIVE METHODS TO STUDY WORK

Chairs: Professor Anne Kovalainen & Postdoctoral researcher Jatta Jännäri, University of Turku, FI

This stream focuses on less used methods and methodologies in empirical studies of work and working life. Stream welcomes papers that present new methods, alternative methods and creative understandings of empirical data, such as visual methods, art-based methods, etc. How to do research on work with these methods and how to relate it to the contemporary understandings of work and working life.

The stream especially welcomes papers that relate to the alternative methods to study work and working life, and aspects around these methods. If you wish to propose a session within the stream, that is, 3-4 papers tied together with specific focus or theme, the organizers will try to accommodate them in the programme.
